

成果转化

ACHIEVEMENTS TRANSFER

科技成果转移转化是科技创新的归宿。长春光机所建立“人才+成果”的转化模式，探索出一条技术创新与经济发展紧密结合的新路。现有投资企业30余家，其中上市公司1家，股票市值最高达到100亿元。与吉林省政府合作共建光电子产业孵化器（国家级A类科技企业孵化器）。在“大众创业、万众创新”的浪潮下，成立“T2T”创业工作室，为创客提供全过程创业服务。

The transformation of achievements into viable products and services is the end result of scientific and technological innovation. By combining talented researchers with our pioneering research practice framework, CIOMP has explored a new way of merging technological innovation and economic development. CIOMP currently owns more than 30 enterprises, one of which is a listed company with a peak stock market valuation of \$1.6 billion USD. By cooperating with the Jilin province government, CIOMP has built an optoelectronics industry incubator designated National Level A for incubators dedicated to science and technology enterprise. Following a recent trend in public entrepreneurship and innovation, the T2T Venture Studio was founded by CIOMP to provide comprehensive services for startup companies.
