

展望

EXEPCTATION

展望未来，长春光机所将以“四个率先”为统领，面向国家重大需求和国民经济主战场，坚持以科技创新为核心的“研产学并举”发展道路，聚焦光电技术创新，引领精密仪器与装备领域的成果转移转化，辐射带动相关产业发展，培养高级创新人才，建成国际一流的精密仪器与装备创新研究基地，为我国经济发展和国防建设续写更加辉煌壮丽的篇章。

CIOMP has formulated an integrated "Research, Industry, and Education" strategy with innovation in science and technology as its core guiding principle. Through this strategy, and guided by the national Pioneer Initiative, CIOMP is meeting the challenges facing the country and its economy. CIOMP's focus is on research in optoelectronic technology and its application to precision instrument engineering and fabrication. By ensuring that research is transformed and translated more broadly, CIOMP is aiding the development of related industries as well as incubating a pool of experts in the fabrication of world-class, high-value instruments. CIOMP is determined to make every possible effort to enhance and optimize China's economic growth and national defense infrastructure.

- 【民主办所】 科学决策的根本所在
- 【人才强所】 持续发展的动力源泉
- 【开放兴所】 成为国际一流研究所的必由之路
